

TERRITORY

PROVEN WHERE IT MATTERS MOST

WHEN THE BITUMEN ENDS
WE'RE JUST GETTING STARTED.

BUILT FOR FREE CAMPING • PROUDLY AUSTRALIAN MADE • NATIONAL SERVICE CENTRES

Supreme has been building the Territory model for over 25 years, refining it through real-world experience, customer feedback, and countless kilometres of Australia's toughest terrain. Even more impressively, Supreme Caravans has been manufacturing off-road caravans for over 40 years, making us one of the most experienced names in Australian caravan construction.

The Supreme Territory Full Off-Road Caravan isn't a newcomer to the tracks —

it's a proven Australian icon.

CHASSIS

Underpinning the Territory is our heavy-duty Roadking chassis, manufactured using premium BlueScope Steel. This high-strength Australian steel chassis is engineered specifically for off-road touring, delivering exceptional rigidity, durability, and long-term reliability — the foundation every serious off-road van demands.

SUSPENSION

Suspension is handled by the industry benchmark Cruisemaster full off-road suspension system. Designed for Australia's harshest conditions, Cruisemaster provides outstanding wheel articulation, superior ground clearance, and exceptional stability across corrugations, rocky tracks, creek crossings, and remote outback roads. The result is a smoother tow, reduced stress on the van, and confidence to explore well beyond the beaten path

REDARC BATTERY MANAGEMENT

Powering your independence is the renowned Redarc battery management system, proudly Australian designed and manufactured. Redarc intelligently manages solar, vehicle, and mains charging, ensuring your power system operates efficiently and safely wherever you travel — allowing you to stay off-grid longer without compromise.

Live your life,
Live your dream,
Live Supreme

The Supreme Territory is **more than just a caravan** —
it's the **result of decades** of engineering knowledge,
proven design, and uncompromising build standards.

SPECIFICATIONS

CHASSIS	
Chassis	6-inch box section chassis rail
A-frame	450mm A-frame extension
Mesh Tray	Mesh on A-frame
Suspension	Crusiemaster XT Independent
Bumper	4-arm bumper for extra strength
